OF REMEMBER THAT YOUR REGISTRATION TAX MUST BE PAID ON OR BEFORE FRIDAY NEXT, THE 24TH OF APRIL.

We are glad to learn, by reliable reports from all parts of the State, that there is the best possible feeling in the Whig party, and that not a doubt is entertained of our success at the coming election. Feuds which have previously existed in different towns, have been settled, and all the members of the party are fully determined to bring out their whole strength in this very important contest. In the towns where the nominating have already been made for Senators and Representatives, the strongest and most popular men have been selected, and they have cheerfully consented to the use of their names—in many instances, not that they are anxious to serve in the Assembly,—on the contrary, they are disinclined to any such duty—but they sensibly feel the vital importance of this election, and they have nobly resolved to sacrifice all personal and private considerations, for the good of the Whig party, and the welfare of the State.

It is highly important that the Whigs of every town in the State should nominate their very strongest and most experienced men, politically speaking,—men who are entirely familiar with all the ramifications of politics, and who can not only command a strong vote on the day of election, but, also, men who will exert an influence in the Assembly, and who are so thoroughly acquainted with all political men and party measures, that they can jealously guard and protect the interests of the Whig party. At this particular crisis, it is of the greatest importance that we should have men, particularly in the Senate, who are thoroughly drilled and well-posted up in all political matters, and who cannot be deceived by any stratagems, however plausible they may appear; unless a man possesses these desirable and all-essential qualifications, he will not only be of but little service, but he will even find himself in an uncomfortable and mortifying position.

IMPORTANT.

By the new Secret Ballot Law, all Registry Taxes must be paid by 12 o'clock Friday night, April 2d, that being the last day. It has been generally thought that Saturday, the 3d of April, was the last day—but by carefully reading the law, it will be seen that FRIDAY is the last day. Whigs, remember this. The language of the law is that the tax shall be paid BEFORE THE FOURTH DAY PRECEDING THE ANNUAL ELECTION IN APRIL.

Several friends have expressed a desire that we should reply to the scurrilous leader in the Advertiser of last week. Beach Lawrence and James Atkinson are small gains enough, in all conscience,—and it is sufficiently humiliating for us ever to be compelled to name either of them, in the discharge of our duty.—but when it comes to such a scurrilous as the Rev. Edward Peterson, who is panty-a-liner at the Advertiser office, it is vexing of us a little too much, when any one requests that we should take notice of such a fellow. Every one understands the character and the objects of Lawrence.—Atkinson is his tool, and Peterson is the hungry lackey of the latter.

The Whigs of Warren held a large and spirited meeting last Tuesday evening, and made the following nominations:—for Senator, Hale Collier; for Representatives, Alfred Bosworth, Thomas G. Turner.

The Providence Herald, edited by Dorr, says that George H. Calvert Esq., of this town, is a Roman Catholic. This will be astounding news to Mr. Calvert and his friends. We hardly think that Dorr would have made this announcement had he listened to Mr. Calvert's lecture before the Mechanic's Association, in this town, a few weeks ago, in which he so bitterly denounced the Pope and the Catholic Church.

Mr. T. Bayard Taylor, of New York, who is travelling to Africa, was on the 12th of January at Khouroun, the chief city of Semnur, and located at the confluence of the White and Blue Nile, about half-way between Cairo and the equator. He had proved quite popular with the native Governor of the place, in consequence of his being the first American who had ever penetrated so far toward Central Africa, having been presented with a magnificent horse, entertained at a grand banquet, and honored with a mighty guard around his tent. He had also been the guest of a princess of Semnur, a daughter of the late monarch. Her ebony royalty had fascinated him and his friends on a sheep roast, and paid them other high-bred civilities peculiar to the aristocracy of Ethiopia. Mr. Taylor was undecided whether to return to Cairo, or press forward to the equator and sources of the Nile. A Catholic missionary, who was bound to the latter place, wished him to continue the journey in company. His health, he writes, was never better.

MR WEBSTER.—The New York Commercial Advertiser of last evening, in an article on the next Presidency, says "Mr. Webster can poll more votes than any of his competitors, and that his prospects are brightening gloriously every day."

The Coronation of the Emperor of Hayti.—This event will take place on the 11th of April. The scene is to be one of great pomp. Twenty-five thousand troops and all the dignitaries of the island are to be present on the occasion.

The Ohio Stage Company held a meeting in Columbus recently, for the purpose of considering a proposition to run a line of coaches through from the States to some point in California. It will require about 1,500 horses.

On the 19th, in Boston, a man named Timothy Paine was fined \$20 and costs for keeping pigs within the city, without license. Paine has paid the city over \$2000 in fines for keeping pigs contrary to law.

The Capturer of Lopez Rewarded.—The man named Castaneda, who captured Lopez, has returned to Havana laden with honors. The Queen gave him \$6,000, and made him a captain in the rural militia with a salary of \$110 a month; ten negroes and a tract of land have been given to him.

The order of Isabel decorates his persons; his children are to be educated at the expense of the government; and while in Spain, he was permitted the grace of kissing the hands of the Queen and the little princess. He can neither read nor write.

Fashion in Cravats.—For the benefit of our fashionable young gents we would state that in Paris, at balls and such like vanities, white neck cloths are all the fashion. With them the shirt collar is generally turned down. Not three out of a hundred, says one of the fashionable authorities, can be seen in any other neck cloth. The universal morning wear is collars turned down so low as to expose the neck, which is concealed only as far as one of the low neck-cloths can cover it.

It is stated that an American engineer has been in prison at Havana since September last, because a locomotive, of which he had charge, ran off the track by coming in contact with an ox. No one was hurt, and the passengers at the time fully exonerated him from blame.

Warrick.—We were correct in saying that between two and three hundred names were stricken from the registry in Warrick, but not correct in saying that they were the names of unknown persons.—Many of them were the names of persons deceased, or removed, or otherwise disqualified.—Prov. Journal.

SOUTH KINGSTOWN.—The Whigs held their caucus in South Kingstown, last Monday evening. It was one of the largest and most spirited primary meetings ever held in the town. They nominated for Senator Samuel Rodman, for Representative, Elisha Watson and Nathaniel C. Peckham.

It is calculated that the strike in England has entailed a loss upon workmen and masters during the past seven weeks, of about one million of dollars!

DEATH OF GEN. MARMONT.—General Marmont, the last of the French marshals appointed by Napoleon, died at Venice on the 5th inst., where he has long been residing.

We understand that the Irving House, New York, reduce their terms for board to \$2 per day, on the 1st of Ap. 1.

THIRTY SECOND CONGRESS.

WASHINGTON, March 26.

SENATE.—The chair presented a communication from the Postmaster General in answer to the resolution of the 4th Inst., relative to contracts with California steamers.

The communication was ordered to be printed, and referred to the post office committee.

The consideration of the private endear was postponed, and the resolution to continue in employment the clerk to the president of the Senate during the remainder of the session, at the previous compunction, was adopted.

Mr. Morgan offered a resolution that the committee of contingent expenses inquire what number of messengers, pages and soldiers were necessary for the Senate, and their pay.

Also, the number of carriages, horses, &c., necessary.

After some little debate the resolution was adopted.

Mr. Mallory presented twenty memoranda from Mexican claimants. Referred to a select committee to report thereon.

Mr. Soule offered a resolution appropriating \$1000 to purchase seeds for the patent office and for distribution.

Mr. Wilson objected to the consideration of the resolution.

Mr. Hale offered a resolution that the committee on public buildings inquire into the expediency of purchasing the picture of Washington crossing the Delaware, to be deposited in the Congressional library. Resolution agreed to.

Mr. Dodge, of Wisconsin, notified the Senate of his intention to introduce a bill granting funds for a railroad from Sheboygan, on Lake Michigan, to the Mississippi river.

On motion of Mr. Bradbury the House amendment in the bill relative to the holding of courts during the disability of Judges, was taken up, and concurred in.

House.—After the usual opening business, on motion of Mr. Houston the House immediately went into committee of the whole and resumed consideration of the deficiency bill, Mr. Stuart in the chair.

Mr. Finch moved an amendment allowing \$22,500 for the removal and subsistence of the Pottawatomie Indians of Indiana. Adopted.

Mr. Johnson moved an amendment of \$50,000 for the removal and subsistence of the Choctaw Indians.

The motion was debated at some length, and was finally adopted.

BARNEY LET THE GIRLS ALONE.—There was quite a bloody fight between two parties of Irish at Dorchester, on Monday, of which the Boston Journal gives the following account.

It appears that an Irish girl was favored with two suitors for the affections of her heart, and being at some difficulty in deciding which of the applicants to receive, she intimated that he who should prove himself the "best man" in a setto, should be rewarded with her affection! One of them was a Catholic and the other a Protestant. They agreed to the terms submitted to them, and met yesterday to settle the matter. At they went, and after a sharp fight the Protestant man began to get the better of his opponent, when two friends of the latter came to his rescue and began to beat the former.

Some of the other lookers-on felt it incumbent upon them to see "fair-play," and therefore came to the aid of the Protestant. From the men the fight extended to the women, one of whom got a stone, or brick, and putting it in her apron, did savage execution with this murderous weapon upon the head of a lad twelve or fourteen years of age, who was a looker-on at the fight. In the mean time the officers were sent for, and on reaching the ground arrested ten of the combatants and took them to Dedham jail for safe keeping over night and examination this morning.

BEAUTIFUL THOUGHTS.—God has sent some angels into the world, whose office is to refresh the sorrow of the poor, and lighten the eyes of the disconsolate. —And what greater pleasure can we have, than that we should bring joy to our brother; that the tongue should be tuned with heavenly accents, and make the weary soul listen for light and ease; and when he perceives that there is such a thing in the world, and in the order of things, as comfort and joy, to begin to break from the prison of his sorrows at the door of sighs and tears, and by little begin to melt into showers and refreshment? This is glory to the voice and employment fit for the brightest angel.

So I have seen the sun kiss the frozen earth which was bound up with the images of death and the colder breath of the north; and then the waters break from their enclosures, and melt with joy, and run in useful channels, and the fies do rise again from their little graves in walls, and dance a while in the air to tell that joy is within, and that the great mother of creatures will open the stock of her new refreshment, become useful to mankind, and ring praises to her Deedener; so in the heart of a sorrowful man under the discourse of wise comfort; he breaks from the despair of life, and the letters and chains of sorrow—he blesses God and He blesses thee, and he leaveth his life returning; for to be miserable is death, but nothing is life but the comforter. God is pleased with no music below, so much as the thanksgiving songs of relieved widows, and supported orphans, of rejoicing, comforted and thankful persons.

TRADE WITH MOROCCO.—The late U. S. consul to Morocco has published a letter earnestly calling the attention of the people of the United States to the importance of the trade of Morocco, which is very lucrative, and is now all enjoyed by England.

Mr. O'Byrne, of Baltimore, went to California last week, and on Monday evening of this week his young wife swallowed three ounces of opium, in an hour of loneliness and dejection.—The doctors by force relieved her of the deadly potion, and it is hoped she will live.

A young lad recently ran away from home and went to a tavern, where he was found by a friend, with a cigar in his mouth. "What made you leave home?" said the friend. "Oh!" said he. "Father and mother were so saucy that I couldn't stand it—so I quit'em."

RICHES ARE LIKE EELS IN THEIR NATIVE ELEMENT, HARD TO BE GRASPED, AND WHEN CAUGHT, EASILY SLIPPING THROUGH ONE'S FINGERS.

MORTALITY AMONG GENERALS.—Within the five years which have elapsed since the commencement of the war with Mexico no less than thirteen American Generals have departed this life, viz.:—Taylor, Worth, Mason, Brady, Kearney, Harmer, Hopping, Belknap, Duncan, Croghan, Brooke, Arthuckle, and Whiting.

BRIDGING THE SUSQUEHANNA.—The directors of the Philadelphia, Wilmington and Baltimore Rail-Road Company, have memorialized the Maryland Legislature, for permission to build a bridge over the Susquehanna, at Havre de Grace. The want of such a bridge makes an inconvenient break in an important chain of railway communication.

MR. HEALY HAS PRESENTED TO THE CITY OF WASHINGTON, PORTRAITS OF EX-Mayor Gales and Seaton.

BY TELEGRAPH.

NEW YORK, March 26.

About 2 o'clock this afternoon, while Mrs. Mallert was engaged in blasting Pot Rock, at Hellgate, a charge unexpectedly exploded, killing 3 men, and fatally injuring 3 others. Mrs. Mallert, who was in the boat at the time, of the accident, was also severely injured.

The "Monk of La Trappe" at Charleston.—The notorious Leachey, whose lectures in this city created so much indignation on the part of some of the Catholic community, was to have given a lecture in Charleston, S. C., on Monday evening. Bishop Reynolds, on the announcement of the fact, published a brief address to the Catholics of the city, concluding with the following excellent advice and Christian admonition:

"We entreat you, then, through the charity and mercy God, and in His holy name, we command you, as children of the Church, not to be present at any of the lectures of the unfortunate man; to abstain from all excited controversy with others on the subject; and to prove your Christian spirit, and our holy teaching, by practising the benevolent doctrine here given you; thus furnishing at the same time evidence of your love of civil order, and of your obedience to the laws, as peaceful and good citizens."

Mr. Hale offered a resolution that the committee on public buildings inquire into the expediency of purchasing the picture of Washington crossing the Delaware, to be deposited in the Congressional library. Resolution agreed to.

Mr. Dodge, of Wisconsin, notified the Senate of his intention to introduce a bill granting funds for a railroad from Sheboygan, on Lake Michigan, to the Mississippi river.

On motion of Mr. Bradbury the House amendment in the bill relative to the holding of courts during the disability of Judges, was taken up, and concurred in.

House.—After the usual opening business, on motion of Mr. Houston the House immediately went into committee of the whole and resumed consideration of the deficiency bill, Mr. Stuart in the chair.

Mr. Finch moved an amendment allowing \$22,500 for the removal and subsistence of the Pottawatomie Indians of Indiana. Adopted.

Mr. Johnson moved an amendment of \$50,000 for the removal and subsistence of the Choctaw Indians.

The motion was debated at some length, and was finally adopted.

ANECDOTE OF THE SULTAN.—Letters from Constantinople relate an anecdote of the Sultan, which is quite worthy of the Arabian nights. A rich Armenian had lost a portfolio containing four hundred thousand piastres, and for which he offered a reward of forty thousand. The portfolio was found, and the reward claimed by a very honest and poor old man; but the Armenian, in order to escape payment, then declared that the portfolio also contained a very valuable ring which the old man must have stolen. The affair was brought before the Sultan, who having ascertained the honesty of the old man, and the well known avarice of his adversary, decided that as the Armenian declared that his portfolio contained a ring, this could not be the one he had lost, and that he had better return it to the old man and continue to advertise for his own.
